

## LAND TO SEA FORCES

LAND TO SEA FORCES: Military Service Corp formation that provides ready, prompt and sustained sea dominance in reaction to local or regional issues within Omicron Commonwealth area of jurisdiction.

Land to Sea Force goals include:

- Distinctive capabilities of training, equipment, and resources to dominate sea deployed operations.
- Conduct sustained, distributed, and assured alliances through forward presence and engagements at sea with minimal risk or collateral damage.
- Capacity, resiliency, mobility, and capabilities that allow Military Service Corp commanders to keep pace with information and incorporate it into strategic and operational plans.
- The convergence of support across deployment and sustainment, including all permanently sea based forces across Planet Earth.
