

LAND TO AIR FORCES

LAND TO AIR FORCES: Military Service Corp formation that is rapid, flexible, and capable of air operations and air support in reaction to local or regional issues within Omicron Commonwealth area of jurisdiction.

Land to Air Force goals include:

- Distinctive capabilities of training, equipment, and resources to dominate operations.
- Streamlining and advancing the reliable use of power with minimal risk or collateral damage.
- Capacity, resiliency, mobility, and capabilities that allow Military Service Corp commanders to keep pace with information and incorporate it into strategic and operational plans.
- The convergence of support across deployment and sustainment, including all permanently based and expeditionary forces across Planet Earth.
