

# RED EARTH

Wavespell:

Red Earth is the access point to your natural alignment with Earth force. Red Earth is the channel of harmonic synchronization that is aligned with the galactic heart. From the center point within self, you align with this galactic center and connect through your own crystalline structure to the larger crystal grid network. To keep this channel of synchronization open, connect to the elemental energies of earth, air, fire and water, and the seven directional guardians.

*Red Earth's* action – its direction in life – is to **evolve**. *Red Earth* people help situations move forward, especially when karmic growth is in question. From the start of encountering a *Red Earth* person to the end, change will happen, slow and certain. Again, there are two suggestions for why growth and evolution occur: the way earth holds a seed and fortifies its root system so it can reach strongly towards the sun; and the way our planet never stops or slows in its orbit, always moving and offering new, expansive views. Similarly when we enter *Red Earth* passages, we can be certain that through the span of our sojourn in its energy, we will be shown vantage points that inspire new perspectives and the stuck situations in our lives will shift and settle, moved by greater forces in the sky and many layers deeper down into our earth's core.

*Red Earth's* power – its offering to strengthen us in turn – is **navigation**. Our planet's journey through the stars is ordained by gravitational relationships with the sun and some other celestial bodies. It doesn't require steering or compass orientation. When we move as *Red Earth* on our trajectory, we do need to hold the wheel and redirect ourselves constantly by the constellations of our lives. We hold an active role, watching for danger and deterrents that impede the flow of our forward movement. We also include others as guides and reference points as we go, watchful for their indication of where we can accelerate or turn. The journey is inwardly solo, but includes many others in the process of growth, steadying our course. *Red Earth* people are defensive drivers and highly skilled at the coordination of their vessel – be it their travel gear, mode of transportation or their own body base. They keep it clean and oiled and monitor its parts to continue a smooth glide.

*Red Earth* has the essence of **synchronicity**, that sweet sensation of not being alone on our life path, but crossing or co-traveling with other people, instances and energies. *Red Earth* times and *Red Earth* people inspire endless amazement at the connections among our collective humanity and the Dreamtime web that interweaves us. We are not just forcefully determining our fate, but cast forward by gravitational pull, by reverberation with other astral bodies. In those life streams, we find others following the same energetic invitations, and so we awaken to the magic of recurring themes, faces, references. *Red Earth* offers us the best part of being an earthling, embodied – to have that childlike awakening to how spirit slips inside of cellular reality and sparks us to realize there is a greater orchestration to life than our free will.

*Red Earth* is antipodal, opposite, to *Blue Hand*. *Blue Hand* represents knowing – touching something in order to make a mental computation that it is so. *Red Earth* simply is. It's the raw material that *Blue Hand* wants to organize and mold. We dig our hands into the earth to make flowers and fruit, to make clay vessels, to feel the substance of each other and create new life forms. *Red Earth* is the matter that becomes the making of new material abundance. *Blue Hand* challenges *Red Earth* by its inclination to shape shift what simply is into complicated novelties. *Red Earth* challenges *Blue Hand* by its vast simplicity, offering rampant new ideas and inspiration. They are in some ways at odds – mental meets corporal, hands-on healing connection meets something always in motion, often moving on – yet as much co-creating balance. *Red Earth* is the material for new creation and *Blue Hand* is the determined visionary making manifestations from source.

*Red Earth* is analogous, supported by *White Wind*. Many elements shape the earth's constant reformation: water undulates over its surface to make ridges and riverbeds; fire fuses minerals into different densities from molten lava to compacted granite. Air is a more gentle touch, stirring up dust but not boulders, whispering across the surface of our planet and its silt layer. *Red Earth* feels clarified by *White Wind*, but not blistered by greater degrees of change. *Red Earth* is moved by *White Wind*, is carried for a while – cleansed especially in the fragmented parts of itself, the residue of bigger shocks and upheaval. *White Wind* is conversely shown how to brush against intractable forms – granite mountains, boulder basins – and still stir all that wishes to move into a dance with spirit. Every granule of *Red Earth* is supported to journey, to shift places and rest somewhere new as air currents slow.

*Red Earth* has a mystical, occult relationship to *Yellow Seed*, for the clearest reasons. *Red Earth* supports *Yellow Seed* in an unseen way. In the darkness of the earth's underbelly, away from light, an incredible alchemy happens. *Yellow Seed* is cased in a shield, a hard protective layer, for survival. Yet within the earth's wet soil, it cracks out of this defense posture and sends its most vulnerable shoot into the pitch, sensing upward growth toward the sun. As 'occult' means hidden, away from view, it's perfect that the intimacy of earth and seed happens in the depth of shadows and the regenerated soil of all the fallen leaves and other earlier losses. *Red Earth* allows *Yellow Seed* to explode towards sunlight, and *Yellow Seed* is the flowering that ultimately decays to create *Red Earth's* topsoil. How death of one leads to another's robust self-emergence is the confounding perfection of occult energy.
