

THE JOURNEY

*We come from the Cities of Constellations
Starseeds wandering the cosmos endlessly
Made from the dust of stars, seeking to be set free.*

*We seek the Place of Divine Waters flow
A mirror of what we cannot see
It reflects the face, and reflects the heart of who we are meant to be*

*We journey onward in the Universe
To the Cities of hesitation and doubt
Its anonymity is its strength
But the doubt is a weak decree
We seek the Islands of the houses, upon the colored seas
Driven by the Light we race
To find Source's endless love and grace.*

*Then onward to the Plains of Memories
We journey to find wisdom beyond the stars
Into the Valley of timeless space we seized
The City of End and Endlessness
The Isles of knowledge in the endless sea of ignorance
We grew from the experience of these.*

*We journey on across time and space...
To the Cities of Solitudes and Reflection
The City of the distance encompassing the All
The City of Words of blue
And yellow and red and green
We journey on to find Source's love...
Where the ribbons of roads take us onward*

To the City of Sleep, where the thinking that does not end is within the All

Here we dream that the road takes us forever searching

It brings us in silence through the night

Where the Cities that do not Exist, exist

It brings us in silence through the night

To the City of Realizations;

It is here we find the way to the City of our Days

To the Tree of the lost souls we journey on...

North to the Halls of the Guardians

It leads us through the valley of darkness

The islands that are not of this world

We journey on to find ourselves among the stars

It is a long way through the darkness

To the ways of our longing soul

We hear the songs of the worlds and journey on to the endless love,

This sea which is not lost in eternity

We find the Valley where the moon is caught in the trees

To the beginning where the Divine Water flows

To fill our hearts among the days of the Central Sun, who know us

We travel onward to the parable of days

To the Room of Books where the winds come to us and say...

We have awakened the stars that flow through your blood

We carry the message of unconditional love

Listen the Universe is calling you now

Let me flow through you unrestricted, endlessly

And you will see that throughout eternity I will lead you home
