

Artificial Timelines

The planetary grid network is a living consciousness matrix that is encoded with the blueprint or original instruction set for the divine plan of humanities spiritual evolution. Hidden deep within the organic matrix is a mirror image of the cosmic projection of Earth's Galaxy of Stars, which is the multidimensional hologram of the Cosmos. When we are describing planetary grid work, we are describing the consciousness body (holographic geography) which is representing the map of the Galaxy on earth. The planetary grid is undergoing a space-time reorganization that ripples out many strange anomalies that influence the quantic field. As a result, there are new patterns of electromagnetic disturbances, interruption or distortions in the collective field. The quantum field, or what we commonly call the inner space-time, is rippling these effects into the unmanifest layers of the core manifestation template, otherwise known as the blueprint matrices that make up the layers of the morphogenetic fields in the earth.

There are many complex layers of infrastructure embedded in the planetary architecture that are for the purpose of generating inversion networks for loosh (energy produced by human beings and animals that other entities use to feed from) production and timeline manipulation on the earth, as well as for controlling the information given to the awakening individuals and truth-seeking groups.

Artificial timelines are used as reversal networks that produce loosh off the higher self of that individual, leaving them to be recycled into the same karmic negative timelines over and over again. The artificial timelines work off of the false Kathara Grid and the perverted principle within that grid of the Law of Reversal. It is designed to invert the organic creator code into the inversion networks that simulate it through the phantom, which reproduces that timeline into its opposite. This is the NAA's attempt to circumvent the Law of Polarity and block the Solar Logos embodiment of the Law of Gender, and create a virtual reality simulation that they fully control through manipulation of the dark matter and quantum field by running AI currents in reversal of the polarities.

During this time, many people are experiencing increases in attempts to round up and hold them onto a negative timeline that was cloned from the artificial timelines that are embedded and enmeshed with the phantom matrix. Currently whole sections of the 5D layers have been dismantled in the second harmonic universe. Individuals may experience perceiving entities like the Zeta groups manipulating thoughts, dreamscapes via distractions, or people may come into your life spontaneously to intersect with the new timeline that the individual has been placed on. This is used purposely to derail progress forward. It also acts as a conscious connection with certain soul extensions or spiritual family groups, so that it can perceive the new levels of frequency coding in the organic timelines that are being shared between the reconnecting groups.

The NAA technologies and machinery are known as the Looking Glass technology, the Yellow Cube networks (both are holographic devices), the Armageddon Software, and the Red Nile Cube (a genetic code crusher that capitalizes on painful emotional astral damage and mistaken identity, confusing identities, so that the target cannot tell who is who, what are the false timelines and imposters versus the authentic identity). These are used by both human and non-human entities in the Controller groups for overriding and manipulating timelines. These devices are a part of the greater war for establishing negative or dark timelines that are AI Artificial Timelines to create a Fallen Earth. These technologies use symbol code programs that target the human subconscious in order to turn off or reverse genetic switches, that would naturally turn on multidimensional communication and higher sensory perception,

such as the innate occurring skillset of remote viewing energy fields. The NAA use symbol codes from humanities native DNA language to target the subconscious and conscious mind of the negative ego programming to direct and manipulate thoughts, belief systems and perceptions in the 3D reality. An increasing number of events are instigating an increase in dark aggression. This in turn, drives the dark entities, or more predominantly grey Alien entities to increase the Looking Glass projected holograms, in an attempt to reclaim groups that they lost control over while being moved out of the artificial timelines. These artificial Timelines are constantly being indulged and manipulated into being pursued instead of a timeline that will accelerate the collective consciousness into attaining ascension.

This includes instigating wars and conflicts in partnership with the NAA. These entities are behind the key soft kill methods being used in the attempt to accelerate the death rate for global depopulation and eugenic models through deploying and weaponizing multiple toxic exposures such as: GMOs, vaccine injections, chemtrails, radiation, nuclear and toxic waste “accidents” and the transhumanist agenda.

Right now, the planetary architecture has entered into the ongoing Solar Rishic matrix initiation in which the original Source Domains from 16D, 17D and 18D are being restored to the original Diamond Sun Gold Sun DNA blueprint of the original creation, which holds the organic timeline for liberating humanity.

When discussing the organic timeline, be aware that this simultaneously is referring to global disclosure. The return of the Solar Rishi into the matter worlds is a significant event which has generated massive impacts to the timeline architecture of this reality, bringing many structural changes to the planetary collective consciousness field.

In the NAA languages, the numbers such as 2, 5, 7 are representative of artificial timelines. In the Artificial Timelines the number two represents conflict, discord, exploitation, and opposition. The number five represents impulsive, resentment, revenge, arrogance, and immorality. The number 7 represents resistance, critical tendencies, suspicious, narrow minded, and argumentative.

11:39 AM ($1+1 = 2$, $3+9 = 12$ and $2+12 = 14$, $1+4 = 5$)

I found the classroom and people limited my expansion of great knowledge and moving forward. I choose to keep going and keep expanding on my own. I am not understanding why we would want to treat anyone any different than we would treat ourselves.

Message 2

2:48 PM ($2+4+8 = 14$ and $1+4 = 5$)

I seek not to treat anyone any different than I would treat myself, so I am deep in study, cultivating peace and harmony that my soul requires. I choose to keep going and keep expanding on my own.

2:41 AM ($2+4+1=7$)

I am having an issue with how I have been treated by certain people. I wouldn't treat myself that way and I don't want them treating me that way. I have chosen to keep going and keep expanding on my own.
