Yellow Human's action – its direction in life – is to **influence**, but this is a refraction of being deeply influenced ourselves. We receive divine influence, then pass it through the tools we create and the hands that hold them, to make an effect on the outer world. 'Influence' is simply to let fluidity in, to feel a flow pass through us and inform our next move. *Yellow Human* receives a stream from divine origin, and directs it outward to the surrounding environment: animal, vegetable and mineral. Hopefully, we can recognize that the divine lives also within each of these entities, and allow the influence of the other species and elements to inform our experience on earth.

Yellow Human's power – its offering to strengthen us in turn – is **free will**. Free will is often perceived as the right to do whatever the hell we want, the choice to act selfishly, freedom that impedes the autonomy of others. This is the ill nature of our current human civilization: our evolved ability to make choices based on memories of past mistakes means that we use our will to avoid any discomfort that would replicate previous pain – and often dish it out to others in our stead. Free will in Natural Time is the free flow of divine will, a connection to a life stream that is our fate or destiny. Our free choice is to connect our empowerment to a divine source, rather than act alone, or for our own sole survival. Free will means that beyond instinctual self-defense and reactivity we can remember the higher consciousness of both the heavens and the soul essence within us. Our distinguishing hallmark, as *Yellow Human*, is to use the past to plan the future – but the goal needs to include an expansive, peaceful presence, and for more than only ourselves.

Yellow Human has the essence of **wisdom**. A kingdom is for kings, and wisdom for the wise ones. We are the home and heart of deep knowing – those ear cones in the glyph demonstrating a way to collect inspiration until it wells in our brain and spills over into our bloodstream. Then we move fluidly through the world acting from divinity. Being smart is something else – sharpened seeing and sensing, quick responses and extroversion. Wisdom has a slower pace, lulls like a trance we see in the glyph, too, in *Yellow Human's* glazed stare. Wisdom is culled from past experience, including past lives, so that we carry in our being the ancestral bloodline of ancient learning, and other ways we have incarnated – even outside of human form. Our *Yellow Human* intelligence is in our ability to access these earlier destinies and synthesize them with present, 'real' time. Again, it's our receptivity to spirit messages recalling these other fates, showing us the strength of them at our back, that makes us more than superficial shells, makes us full with knowledge.

Yellow Human is antipodal, opposite, to *White Wind*, and this is the most crucial relationship for us to behold as a species: if we embrace our antipode, the place of air, spirit, an unseen influence that is undeniably protective, fierce and eternal – if we communicate with our breath to this ether world – we are strong, integrated human beings. If we instead don't believe in a realm beyond the everyday experience of cellular reality, and somehow place ourselves as the Universal Source on earth – maintaining an illusion of control – then we are imbalanced, polarized to an egoic extreme. *Yellow Human* and *White Wind* need each other, create a perfect symmetry in tandem. *White Wind* asks the *Yellow Human* to serve divine will by enacting the spirit message offered. *Yellow Human* leans into *White Wind* for direction, inhalation, and vertical strength.

Yellow Human is analogous, supported by *Blue Hand*. We need our hands to create the means for our own survival – because we are otherwise weak and without the physiology of self-defense: sharp teeth and claws. We fashion tools that wall out the predatory wild, or weapons to secure food and take down attacker. But beyond the support of self-preservation, our hands, as humans, let us be the healers and work in delicacy, the softest touch. *Yellow Human* is supported in its divine influence by not having to walk on all fours, but having these heart extensions that provide outreach and physical care. *Blue Hand* uses the *Yellow Human's* capacity for giant insight and intuition to make the right tools for a simple but successful – empowered – life. That inner wisdom accompanies the healing hand, forging a mind-body and hand-eye connection that can mend many broken parts.

Yellow Human has a mystical, occult relationship to *Red Moon*. Since we as humans influence, and are influenced, we are already within that word fluid in nature. The *Red Moon* offers this water flow of emotional change, of constant movement through lungs, bloodstream and lymph. *Red Moon* pulls at our wet state, makes us tidal, and is the emblem of procreation in women – for all new life. *Red Moon* likewise shows the mark of small death in a menstrual bleed, wedding us to the largest flow of all through the fate of living and dying. *Yellow Human* in turn is a vessel for *Red Moon's* flow, damming it into density, containing it momentarily in an eddy before it runs on. For *Red Moon* people, *Yellow Human* is a chance to be beyond elemental, to be embodied in animal form, to be a little less pure and free. Sometimes this normalcy is a soothing balm, before the reconstitution into pure nature, wildly unbound or resigned to the downhill rush to the sea.

Contemplate these code-words to invoke your key powers:

ENDURE ~ TRANSCEND ~ PRESENCE

Tone 13, symbolized by the spiral, represents the dynamic of movement present in everything and by which everything is ever-changing and vivified by universal, cosmic life force.

The gift of your cosmic identity is to access the power of Omnipresence. Activate your Cosmic powers by being a disciple of the present moment; by cultivating your capacities to be wakeful and receptive to each new now; by going beyond the rational mind and letting yourself think with your ancient heart; by being conscious of your continuum, while still living in the moment; by learning to “ride the spiral,” ascending to higher levels of being; by allowing your cosmic spirit to carry you through the many journeys of trial and triumph this life has to offer; by transcending fears of the future; by transcending regrets of the past; by transcending the limits of linear time and synchronizing with the radial flow of synchronic reality; by recognizing us all to be but evolving children of an ever-unfolding cosmos...
