

BLUE EAGLE

Wavespell:

Symbolizes the Higher Vision from Above, which is embedded within the Essence of the Divine Mind. Thus, the Spiritual Vision manifests through the Ajna Chakra or Third-Eye Chakra. The Blue Eagle invites us to Create Vision in order to connect with our Higher Self, the Divine Mind within. This is exactly the symbolism of the heavenly bird redeeming the earthly aspects of being, the bridging of Heaven and Earth.

Blue Eagle's action – its direction in life – is to **create**, because they act as a Creator who sits at the peak of the pyramid of all existence. They know how to invent and accomplish because they understand how so many processes unfold and objects are put together. They are rarely in full subservience, more often have empowerment over their free time or governance within their employment, so they can act as the one in charge or overseeing a project. *Blue Eagle* people can be fine artists and writers, their visual capacity so detailed and deep, and they can also bask in others' ability to refine life in words and images, the big picture view.

Blue Eagle's power – its offering to strengthen us in turn – is **vision**. There is their ability to fly, to be above, that separates them from the rest of us, which might be mental brilliance or ingenuity that sets them as leaders, alone in pioneering new wisdom. But *Blue Eagle* also has this gift of penetrating and expansive sight. They can see distance, and they can see detail. Nothing escapes their eye. Therefore their everyday living is dominated by what they behold by sight, more than smell, touch, listening, tasting and then the sixth sense of intuition. They stay in the air, their minds, scanning and sweeping their eyes over the great spread of earth and sky.

This is their life function, their orientation and their potency. They can at worst be voyeurs and looky-loos, gossip about the people in their lives as if they were underlings. But in their best expanse, they are visionaries, understanding the big picture beyond everyday cultural conception, one woven seamlessly to the sky Universal Sources' intent.

Blue Eagle has the essence of **mind**. Compared to the rest of the animal kingdom a bird has the lightest bones and any heft it achieves is plumped up feathers. It's hardly cellular, positioned next to a land mammal. The only density is in its mental capacity, its ability to synthesize the sights its eyes amasses. This is the focal point of the *Blue Eagle* people, their distillation. How they're physically formed, who they know, what they do in the course of their lives is seated in their brain organ, its lower function of survival and higher aspiration of complete understanding of Universal Source. *Blue Eagle* in their daily life have been lifted through an escape hatch into the sky, and they know the presences there more intimately than your average human being. The mind they hone in themselves is modeled after the higher realm of spirits they've come to know more intimately than the carnal world.

Blue Eagle is antipodal, opposite to *Red Serpent*, which is one of the easiest examples of different to a polar extreme. They live at opposite ends of our planet's atmosphere – its outermost edges or its surface dirt. *Red Serpent* crawls along the earth's surface, *Blue Eagle* only touches down to take its prey. One is highly vulnerable, the other a ruthless hitman. They meet really for that meal where *Blue Eagle* consumes *Red Serpent*, if at all. But we have an image from ancient Mexico of Quetzalcoatl, the Universal Source that is half-bird, half-snake. And this describes the antipode relationship perfectly: two strikingly opposite entities meet to constitute something beautiful, powerful, blessed. *Blue Eagle* is balanced by *Red Serpent* people, days, gestures, brought down to earth to feel its topography much closer to its skin. This gesture of descent, the embrace of being lithe, sensual and out of their head for a while, creates holiness.

Blue Eagle is supported by *Yellow Seed*. This makes sense. Birds eat seeds for nourishment and seeds are spread through bird droppings, evolutionary sustainment secured in both directions. Really, *Yellow Seed* is the totem for all plant life just as *Blue Eagle* represents all birds, and there is so much interdependency between them. Think of the hummingbird feeding on flower nectar, the crow pecking at harvest corn, the song birds perched on the branches of the seasonal fruit tree. *Blue Eagle* and *Yellow Seed* have equally focused fixations: *Blue Eagle* on vision, and *Yellow Seed* on awareness. *Blue Eagle* is more heady, thinking thoughts, *Yellow Seed* more body, feeling sensation. They fill each other's gaps. They are both light, porous, rising to the sun and points of bright beauty against the backdrop of land and sky.

Blue Eagle has a mystical, occult relationship to *White Worldbridger*. When the highest bird in flight meets the bridge out of this atmosphere and into the heavens, great magic and mystery is beheld. It's almost as if death, a crossing over, is really the eagle's aim when it disappears into the farthest distance from earth. To meet it in *White Worldbridger* brings giddy relief: the gateway into a greater beyond is arrived upon and entered. In life, great thinkers imbued with *Blue Eagle* visionary intellect are fascinated by philosophies and spiritualities about other worlds, real and imagined and beyond imagining. There is such an appetite for height, flight and relief from the congestion of planet earth that escape into an afterlife has at least fantastical appeal. *White Worldbridger* also accesses the ancestors, and *Blue Eagle*, family-focused, stays connected to those who have passed as part of their flock.
