

BECOME A MEMBER TODAY AND CHANGE THE WORLD FOR A BETTER FUTURE

Commonwealth: A self-governing autonomous nation founded on law and united by a constitutional agreement of the people for the common good of uniting the world.

About Us

The membership of the Omicron Commonwealth depends on people from all walks of life who wish to ascribe to a larger network of cooperation, development, and progress.

We are committed to equality and respect for the protection and promotion of civil, political, economic, social and cultural rights, including the right to development, for all without discrimination on any grounds as the foundations of peaceful, just and stable societies.

We note that these rights are universal, indivisible, interdependent and interrelated and cannot be implemented selectively. We are unyieldingly opposed to all forms of discrimination, whether rooted in gender, race, color, creed, political belief or other grounds.

COMMONWEALTH PURPOSE

The Commonwealth has as its purpose the promotion of harmonious relations between the Omicron Commonwealth and the Members and/or Partner(s); the establishment of an equitable and peaceful procedure for the resolution of differences; the establishment of standardized operations, methodologies, and services; global stewardship and ownership of knowledge, data, science, and technology; and other conditions of mutual benefit to the Commonwealth and a Global Charter.

GOVERNANCE

We are committed to ensuring that the Omicron Commonwealth is an effective association, responsive to members' needs, and capable of addressing the significant challenges of the future.

We aspire that Omicron Commonwealth become a strong and respected voice in the world, speaking out on major issues; that strengthens and enlarges its networks; that has a global relevance and profile; and that is devoted to improving the lives of all peoples and Species of the Omicron Commonwealth.

WE MUST TAKE CHARGE OF DATA

It is of utmost importance that we not turn the reigning authority of Extraterrestrial Visitation Research, Recovery, and Investigate solely over to Defense Departments and Intelligence Communities, who will only approach this from a national security threat. The Corpus of military executions and derivatives of National Security and Intelligence, as well as, the conflict of interests between these entities has proven that neither party could perform their duties appropriately because it would mean betraying their interests to one of the parties within the situation. Therefore, full disclosure would never be an option, much less attained.

We must understand the extraordinary implications and long-term benefits that will unfold and shape our world into a new age of knowledge and understanding, ideologies never before realized, and most certainly open the door to our universe of existence.

An undertaking of this magnitude would unite our knowledge rather than bolster our fears of one another. It would set goals for humanity becoming part of a larger system of knowledge rather than a confined system of ignorance. We must literally become a united, uniform, web of practice with a common goal.

CREED

I undertake this great leap forward of my own free will and I accept the fundamental values of the Omicron Commonwealth: respect for all life-forms, self-determination for sentient beings, and the primacy of basic individual rights.

I embrace a simple truth: that galactic civilization can only progress when the many peoples of Planet Earth and the stars act as one for the sake of all.

I stand with the Omicron Commonwealth in the interests of peace and goodwill, and I stand against the powers and principalities that might divide or destroy us.

What I establish today shall not perish from the Universe. Though the stars themselves grow cold and black, the Omicron Commonwealth endures - and through it, so shall we.

Our Outreach

The Omicron Commonwealth shall promote an awareness and understanding of Extraterrestrial Visitation Phenomena through open communication with allied professionals and the public.

IF WE BUILD IT...THEY WILL COME

It is important to build a coalition of civilizations from many different sources at home and in our universe to ensure we can work together for the harmonious existence of all life, but we must provide that foundation on Planet Earth. We firmly believe that peace and security, sustainable economic growth and development and the rule of law are essential to the progress and prosperity of all. We are committed to an effective transdisciplinary system based on inclusiveness, equity, justice and law as the best foundation for achieving consensus and progress.
