

## COSMIC IDENTITY BASICS PART TWO

We continue the basics of your Cosmic Identity. Refer to Part 1 for more info.

**SOLAR SEALS:** The 20 symbols or glyphs are energies. These archetypes are described as behavioral patterns. The seals follow a fixed sequence that allows us to view them as an evolutionary process. Based on your date of birth, you will have one of the archetypes as your main energy or sign. The day we were born represents our Galactic birthday and that kin gives us the soul quality with which we follow our path on Earth. This energy in combination with the other glyphs in your personal oracle creates a specific frequency indicating why you have inclinations towards certain matters, and how you can do things differently. These archetypes can be experienced in two different ways. When we live on a soul level and we make heart-centered choices, they are felt as pure energy and Light. As human beings, when living on an ego level and choosing out of fear, we experience the shadow aspects. This is why two people with the same Kin may have different attitudes towards life. The more you know yourself, the easier it becomes to be clear with what you want to attract, what type of relationships you want to have, and how you can change what no longer serves you to create a more meaningful and happier life!

**THIRTEEN TONES:** Each number is symbolic of personality traits that fit those who were born under that day number. Each galactic tone symbolizes the path one should take and the energy that the time of birth represents. The lunar tones that accompany each number are a unique representation of the human body. The 13 numbers are expressed in dots and bars and are known as Lunar Tones. The 13 Lunar Tones are numbers known as the Tones of Creation and are represented by dots and bars: These • Dot = 1 — Bar = 5 13 numbers complement the glyphs by activating their qualities and providing information on how your personal mission or daily tasks can be accomplished.

If you are involved with a five person, let them take charge. You will be happier that way. They are very competent and usually rise to the top of any organization or group. They make powerful administrators.
•—	6	Rhythmic	Restores balance and organizes	Responsive, improves	Creates flow	Equality	Organize	Balance	I put together what I have	If you are a six person, then you know that beginnings and endings are part of life. You do not fight changes, but allow yourself to work with them. Six people can be good negotiators. A six personality is always interested in making whatever is going on in their life better. They are responsive to the needs of others and will usually try to find a solution that will work for all concerned. Six people are very dynamic in nature and will attract what is needed in their life to keep their life going smoothly. A six person can tend to be critical. They can also suffer from an indulgent nature. They can flow into many situations that they may not really desire and then berate themselves for ending up where they are. It is important for six people not to be too hard on themselves.

••—	7	Resonant	Inspires and creates resonance	Reflects, maintains	Reveals	Attunement	Channel	Inspire	I center myself to be inspired	Seven people are very different from the six people. This applies to spiritual beliefs and practices as well as material ones. Eight people love to travel and see what the world is like in other places and with other perspectives. The number nine is also associated with patience. This is because nine people are all about getting to the finish line of whatever is important to them at the time. When they are in the right frame of mind, a nine person will keep going until the goal is achieved.</p>	
==	10	Planetary	Energy of manifestation	Manifest	Challenges	Manifestation	Perfect	Produce	I make it happen	<p>This is the number of manifestation. Ten people like to take what is raw and unrefined and bring it into the world. Those born under the number ten are able to create with whatever is around to make something valuable and beautiful emerge. When a ten person has direction and focus, they will attract what is necessary to turn their thoughts and visions into reality. Whatever a ten creates must have a strong foundation in order to be successful. If ten people lose sight of their goal or try to do too many things at one time, it will dissipate their creative energy and they will not be able to manifest their dreams. Ten people are usually very responsible, but they do have a tendency to accrue debts. Their drive to manifest can often disregard the means that they use to birth their ideas. Tens need to be mindful that the end does not always justify the means. If they focus on their goals and are in harmony with the steps that are needed to get them there, they will manifest their visions.</p>	
● ==	11	Spectral	Releases and dissolves blockages	Resolution, facilitates change	Creates clarity, integration	Liberation	Dissolve	Release	I dissolve limitations	<p>Eleven people have the ability to strip away what no longer serves so that they can move forward into new creation. Eleven people are really good at seeing what may be useless at this present time and releasing it. The nature of eleven people is to be a bit aloof. This can be difficult when an eleven person is in a relationship. They constantly clear away the old within themselves. They help others to release what no longer serves them. Being true to yourself is very important for an eleven person. They are always looking for balance. They have an innate desire to balance what has been out of whack. Many eleven people are interested in healing. They may be physical or emotional healers. Eleven people often are very successful when they focus on overcoming challenges that come into their lives. Striving to heal conflict is the way that elevens are able to be their best.</p>	
●● ==	12	Crystal	Shares with and learns from others	Understanding, retrospection	Endings and new beginnings	Cooperation	Dedicate	Universalize	I collaborate with others	<p>For this reason those with the twelve vibration have a certain melancholy about them. Even though they seem to be in touch with endings, twelve people are interested in activation of change and regeneration. These people will always help others set a new course. The twelve has the ability to save what was useful from the old and incorporate it into a new beginning. For this reason, twelve people make good counselors. They can help people pick up the pieces of their lives that have been shattered and start anew. Twelve people can also get in trouble from bragging. I saw that happen a lot when I was with Ian. They are enchanted with the past. When a twelve person is able to stick to a project and complete it, their creations can attain greatness. Completing projects will get them the acknowledgement and praise for a job well done that they are seeking.</p>	

	13	Cosmic	Transcends and closes a Wavspell	Ascension, authority, intensity	Supreme deity – completion	Presence	Endure	Transcend	I give closure	The number thirteen is a very powerful number. It represents going to the highest level of accomplishment. Those born with the number thirteen will be very good at tying up loose ends, making sure all the details of a project are in order. Thirteen people are always interested in improving upon what they have created. Thirteen is at that point of getting ready to jump into the void to start a new cycle or project. Thirteens often have their feet in both worlds. They are at home in void, for they know that the void is that from which manifestation begins. Thirteen people are often psychics or clairvoyants. A thirteen person will always have a lot of intense experiences that they will either create or the people in their life will create for them. Unexpected change is always part of a thirteen person's life. For a thirteen person to be happy, they need to realize that change is a constant in their lives. They will be pleased if they can be flexible and allow new situations into their lives. Thirteens are always standing on the precipice of any area of life, ready to jump off into a new creation, or take it something already created to the next level.

Each day has a specific creative power, which indicates a vibration and an action to take:

**KIN:** The kin is the combination of a glyph (solar seal) and a tone (number). The Year is determined by the Kin that corresponds with July 26, which represents the beginning of the new 13 Moon Calendar year. It always coincides with one of these four glyphs or energies. Each Year is divided in 13 Moons of 28 days each and a Day out of Time on July 25, which is the end of the 13 moon calendar year. The 28 days per Moon are divided in 4 perfect weeks of seven days each.

	Red Moon
	White Wizard
	Blue Storm
	Yellow Seed

**HARMONIC MATRIX:** The Harmonic Matrix contains the 260 combinations of 20 glyphs by 13 numbers. On the left side is a reference column with the 20 archetypes from Red Dragon to Yellow Sun. The 13 columns contain the 260 Kins from Kin 1 on the top left corner down to Kin 20, continuing on the top of the second column and so on until you reach Kin 260. The Harmonic Matrix has 52 green cells called Galactic Activation Portals (GAP) days creating a DNA structure representing the double helix and making the energy more intense because it is linking both the macro and micro cosmos. The seventh and central column, known as Mystic Column, contains the 20 Core Days and it represents the middle of the cycle. In the heart of the Harmonic Matrix, between Kins 130-131, it is said to be when we are closer to the Supreme Creator.

A 'portal' means a gateway, an entrance to other dimensional frequencies, representing days when the energies are felt with more intensity and our awareness is amplified.

The Mystic Column, highlighted in purple as a reference, is the seventh and central column representing the middle of the Harmonic Matrix and cycle. The 20 Core Days contained in this column represent a period of attunement, a time to be fully present in each moment, to go within, rest and take care of

oneself. This column symbolically represents our spine, which keeps us straight and centered. It is located in between the two GAP-day columns and, while still felt for its strength, it allows us to pause and realign within the intensity of the Blue Castle of Transformation. If you are connected with life on a soul level, these days present great opportunities to consciously accelerate your awakening journey by gaining a better understanding of cosmic wisdom. And, if you are living caught in the illusions created by the ego, these days can also be felt as turbulent and chaotic.

**PLASMA RADIAL:** In the 13 Moon Calendar the seven days of the week are the Seven Radial Plasmas. Each of the Seven Radial Plasmas has its own unique power and corresponds to the seven chakras in our body.

**CASTLES:** In the same way that a Wavespell can be understood as a “week” of 13 days, a Castle can be seen as a “month” of 52 days. You will see below what the castles represent and which Wavespells each contain. One cycle of 260 days is divided in five periods of 52 days called Castles, and always follow the same color sequence of Red, White, Blue, Yellow, and Green. Each Castle is divided into 4 Wavespells of 13 days each.

RED CASTLE	WHITE CASTLE	BLUE CASTLE	YELLOW CASTLE	GREEN CASTLE

kin 1-52	kin 53-104	kin 105-156	kin 157-208	kin 209-260

**RED EASTERN CASTLE OF TURNING** is the first castle in the cycle and lasts for 52 days. It is associated with the color red, which symbolizes the energy of initiation. This means that it is a time when new ideas, new relationships, and new projects are being born. It is a time of great potential and possibility, when the energy of the cosmos is aligned in a way that is conducive to new beginnings and fresh starts. The direction associated with this castle is east, which represents new beginnings, fresh starts, and the dawn of a new day. During this castle, it is important to be mindful of our thoughts and intentions. This is a time to focus on what we want to manifest in our lives and to take action towards those goals. It is a time to let go of any limiting beliefs or negative thought patterns that may be holding us back. By working with this energy through ceremony, ritual, meditation, and visualization, we can tap into its power and bring about positive change in our lives.

**WHITE NORTHERN CASTLE OF CROSSING** is the second of the five castles in the cycle. It is associated with the North and the color white, which symbolizes clarity and purity. This castle is believed to represent a time of purification and transformation. It is a time when we are encouraged to let go of the past, release negative energy, and embrace change. This castle is also associated with the concept of death and rebirth. Death is seen as a transformation rather than an end. This castle is believed to be a time when we can shed our old selves and be reborn as something new. It is a time for reflection and introspection, a time to look inward and assess one's life. White Castle is also associated with the element of air. Air is believed to be the element that carries the messages of the divine. It is a time when we are encouraged to listen to our inner voice, to connect with our intuition, and to be open to the messages of the universe.

**BLUE WESTERN CASTLE OF BURNING** is the third castle in the cycle, associated with the West and the color blue, which symbolizes setting sun and represents the end of a cycle, a time of reflection, and a time of letting go. This castle is a time of purification and transformation, a time when we are encouraged to face our fears and release negative emotions. It is a time to burn away old habits, patterns, and beliefs that no longer serve a purpose. The concept of burning is significant, as it represents the transformation of one state of being to another, similar to the way a fire transforms wood into ashes. It is a time to embrace change and transformation and to trust the process of purification. This castle can be challenging, but it is a reminder that even though transformation can be difficult, it is necessary for growth and

evolution. It is a time to embrace change and to let go of the past, while making space for new growth and opportunities.

**YELLOW SOUTHERN CASTLE OF GIVING** is the fourth castle in the cycle and represents a time of abundance and generosity. It is associated with the South and the color yellow, which symbolizes the sun, warmth, and vitality. The South is the direction of the midday sun and represents a time of prosperity and abundance. Yellow represents the energy of giving and generosity, as well as the joy and happiness that comes from sharing with others. This castle is a time of giving, a time when we are encouraged to be generous with our time, energy, and resources. It is a time to focus on community and to give back to those in need. The concept of giving is significant, as it represents the interconnectedness of all things and the importance of contributing to the greater good. Yellow Castle is a reminder that generosity is a powerful force for positive change. This castle is a time to find joy in the act of giving, creating a positive cycle of abundance and prosperity.

**GREEN CENTRAL CASTLE OF TRANSCENDENCE** is the fifth and the last castle in the cycle and represents a time of spiritual growth and moving to another level of evolution. Green represents the energy of growth and renewal, as well as the balance between the physical and spiritual realms. This castle is a time of spiritual growth and transformation, a time when we are encouraged to connect with our higher selves and to transcend our physical limitations. It is a time to focus on spiritual practices and to cultivate a deeper understanding of the spiritual realm. It is believed that the practice of transcendence can lead to enlightenment, allowing us to connect with the divine and to achieve a higher level of consciousness.

Each of the four weeks has a unique power:

**ROOT RACE:** The Great Chain of Life established the foundation for the master races (Dhyahani Chohans – those that contemplated the knowledge to guide and teach the principles of the Universal and Cosmic Laws and Universal Order) to the Universe. Every person has an original cosmic identity that embodies the Universal intelligence imparted by the root races that include:

patterned harmony,  
 qualitative power of wholeness,  
 synchronic vibrations,

 Emanations and auras

**EARTH FAMILY:** The Earth family is one of the key components and it represents a group of kin that share a common purpose and energy. Each family has its own unique qualities and roles within the larger cosmic order. The four seals of your earth family recur every four years. This creates a pattern that repeats 13 times in a 52-year cycle. There are five earth families: Polar, Cardinal, Core, Signal and Gateway. Each Earth family corresponds to a specific chakra and Earth families code the planet holon in five horizontal rows. A holon refers to the holographic essence of any given form: human, planet, star, galaxy.

There are five Earth families:

1. Core Family – Mine the tunnels: Red Earth, White Wind, Blue Hand, Yellow Human
2. Signal Family – Unravel the Mystery: Red Skywalker, White Mirror, Blue Night, Yellow Star

The human holon is the holographic "soul" element of the human form. The 20 Solar Seals are contained in the body's 20 fingers and toes; the 13 Galactic Tones are contained in the 13 main articulations: two ankles, two knees, two hips, two wrists, two elbows, two shoulders, one neck.

### WISDOM CHROMATICS

Chromatic Clan:

WAVESPELL: A Wavespell consists of a sequence of 13 numbers/Lunar Tones starting with Magnetic Tone (1) and ending with Cosmic Tone (13). The first day of the Wavespell sets its Purpose and the underlying theme for the next 13 days. The concept of a Wavespell helps to understand the sequence and importance of the thirteen days on a larger scale:

- Our body has 13 joints, which facilitates physical movement (ankles, knees, hips, wrists, elbows, shoulders and neck)
- There are 13 moons within a solar cycle or year (Each moon (or month) on the 13 Moon calendar contains exactly four seven-day weeks or heptads.  $7 \times 4 = 28$  days)
- Each Season of the year has 13 weeks
- The 13 Moon-28-day calendar is a simple tool that helps us to raise our frequency and gives us a new lens to view both our day-to-day and planetary events.

The 13 tones of creation together form a cosmology of motion, and the cosmology of motion is called the Wavespell. Any process can be completed within the wavespell, following the energies of the 13 tones. By approaching the Wavespell as a series of 13 steps, we receive guidance for the completion of any idea or project

that we wish to manifest in our lives.
